<Customer Short Name> Process: <Process Name>	Business Area: <Business Area>	Date: <Date>
Control Number: <Control Number>	Priority(H, M, L): <Priority (H, M, L)>	Process Owner: <Process Owner>

Description: Use this form to define the Production Lines. You can define and update, but not delete Production Lines. A Production Line describes a unique set of operations, departments, and/or manufacturing cells that produce one or more of your products. You can associate Production Lines with repetitive assemblies, discrete jobs, and work order-less completions.
