Introduction

Purpose

The purpose of the System Performance Assessment is to describe the performance evaluation and measurement of <Company Short Name>'s production systems.

Background

At the time of performing the system performance assessment, <Company Short Name>'s systems have been in live operation for a period of <Time Since Live Cutover>. The systems have been performing <satisfactorily/unsatisfactorily>, with the following identified performance issues outstanding:

-
-
-

This study was conducted over the period ...

System Performance Team

The work described in this document was conducted by the following system performance team:

- <Team Member 1> <Role>
- <Team Member 2> <Role>
- <Team Member 3> <Role>

Scope

The performance measurements of <Company Short Name> systems covers the following system components:

-
-
-

The following items were out of scope of the current study:

- Network performance measurements
-
-

Objectives

The objectives of the system performance study were:

-
-
-

The purpose of the performance test was to ...

Approach

This section describes the approach taken to achieve the objectives of the system performance study.

Method Summary

<Summarize the performance measurement methods>

The following list describes the main steps used in conducting the performance measurements:

- 1.
- 2.
- 3.

Method Details

Tools

We used the following tools to gather and analyze the performance measurements for this study:

Tool	Explanation

Results

This section describes the performance results for...

Summary

The reported performance measurements were captured during the following time frame: <performance measurement date/time range>.

<Give a general overview of the results and their implication.>

Performance Measurements

This section lists the test performance measurements taken ...

Test Business Function	Action	Application	Module	Seq.
Order Entry	Enter order header in Order zone (in booked state)	Oracle OE	Enter Orders	1
	Navigate to Additional Order Information region (next zone)		Enter Orders	2
	Enter further order header details		Enter Orders	3

Test Business Function	Action	Measurement Code	Measurement
Order Entry	Select customer in order header of Enter Orders		Time to validate customer name from fully typed value
	Commit order header in Enter Orders		Time to commit completed order header

Test Business Function	Action	Measurement Code	Measurement

Conclusions

The performance measurements and results suggest the following:

- 1.
- 2.
- 3.

Recommendations

Based on the results of the system performance and the interpretation above, the system performance team makes the following recommendations:

- 1.
- 2.
- 3.
