Burden Costing Setup/PA: Define Invoice Formats

<Company Short Name> Process: <Process Name>	Business Area: <Business Area>	Date: <Date>
Control Number: <Control Number>	Priority(H, M, L): <Priority (H, M, L)>	Process Owner: <Process Owner>

Description: Use this form to define which groupings Oracle Project Accounting should use to summarize expenditure items, and how Oracle Project Accounting should order and justify the fields in the invoice line.

Attention: Retentions apply to the total amount of a draft invoice, which may include event amounts as well as expenditure item amounts. A grouping therefore has little meaning for retentions.

Some of the fields may not be available for your selected Grouping.
